MEMORANDUM FOR: Chief, Technical Services Staff

SUBJECT :

[Redacted]

25X1

1. Description of the Project

This project is for the pilot production of the Explosives Container, Clam type, MK II. A set of specifications would be prepared first and then a pilot lot of 3000 units would be produced.

2. Purpose of the Project

The units produced under this project would provide a limited stock from which sample quantities could be obtained for initial distribution to interested area division and field stations. At present, no such stock for sample distribution exists. As previously planned, the 1000 units produced under the development project have been mostly expended under an extensive test program to determine reliability under various conditions. (See attached report.)

3. Recommended Contractor

[Redacted]

25X1

4. Support Requirements

There are no support requirements from other Government agencies foreseeable at this time.

5. Total Cost

The total estimated cost for this nine months project which is to result in 3000 units with specifications is \$12,711.00. Procurement is to be made under [Redacted] charges to be against Stock Procurement Account, TSS Material #9-6896-10-000.
